

# Air Excellent – Acoustic plenums

Manifold material 1,00mm NEN-EN10131 (MAT.ST.02Z  
275 NA NEN-EN 10142/10143)

Acoustic foam sections are also designed to provide even airflow to the plenum connections which are individually adjusted with the Air Excellent 'restrictors'..

Acoustic foam sections are designed to assist air flow with minimum resistance and provide maximum sound absorption.
